VIOLENT BREAK IN

This Has Bad and Depressing Effect Upon the Entire List of Speculative Securities.

GENERAL LACK OF SUPPORT IS APPARENT

Prices in Last Hour Lowest of A the Week in Many Instances.

NEW YORK, Jan. 9.—The stock market had to contend again today with the effect of a violent break in one company's shares in which there had been an inordinate speculation based on assumed favorable developments, followed by intimations of coming disappointment of speculative bopes. These were conveyed in the reports of a heavy assessment involved in the reorganization of the New York Traction situation. The effect was seen in the six-point break in Interborough Metropolitan preferred, which measured the extreme loss. No definite information was forthcoming to guide the perturbed speculators in the stocks. Added to this factor of disturbance it became evident that support was no longer effective, if it was attempted, in a considerable number of stocks of smaller railroad systems, which have undergone recently a process of speculative exploitation by the circulation of pumors of increase in dividend distributions of mergers with more power.

undergone recently a process of speculative exploitation by the circulation of rumors of increase in dividend distributions, of mergers with more powerful companies and by other suggestions of coming happenings which would redound to the profit of shareholders in these companies. The sentimental effect was bad on the whole list.

Influence from abroad was depressing, London being dissatisfied with its a setary outlook. The call for relief on New York is expected to lead a considerable outgo of gold computations, running as high as \$20,000,000.

Although this will be coupled with trust company requirements during January for additional cash estimated at upward of \$40,000,000 to meet the increase in reserve obligations on February 1, little apprehension is felt of a rise in money rates. The influx of funds from the domestic interior is so heavy as to furnish a safeguard against that and to give, in addition, some disquicting suggestions of the light devand of trade for the use of money. Bankers report continued quick sale of new bonds which they are offering, and with no sign that the investment demand in that quarter is satisfied.

Many of the prizes touched in the demand in that quarte ris satisfied.

Many of the prices touched in the last hour were the lowest of the week, last hour were the lowest of the week, and rallies were feverish. The actual increase of nearly \$20,000,000 in the cash holdings reported by the clearing house banks figured for only \$11,000.000 in the statement of averages, in which also the loan expansion so far kept pace with the cash deposits that the increase in surplus was limited to \$1.735,650. the increase in surplus was limited to \$1,735,650.

The heavy tide of the cash inflow was the moderating of loan expansion and assures strength for the next bank

Bonds were easy. Total sales, par value, \$3.616,000. United States bonds were unchanged

322.050.200.

The increase in deposits necessitated an additional reserve requirement of \$8.000,000, but even with this, the surplus reserve on all deposits was increased \$1.597.075, standing on Saturday at \$26.201.450. The banks gained heavily during the week from the interior, and also from operations with the subtreasury. The shipments of gold abroad amounted for the week to \$2.000.000, and as the season is approaching when money naturally flows to this center from the interior, every facility for further gold exports exists at this time. The summary of the state banks and trust companies in Greater New York not reporting to the New York clearing house indicated a contraction in loans of \$1.956.500, an increase of about \$11.500.000 in cash and a decrease of \$2.375.700 in net deposits.

The trust companies within the next three weeks will have to provide something like \$40.000,000 additional cash reserve against deposits in order to comply with the provisions of the New York banking law, and this withdrawal of funds may have a momentary effect on the local money market. affoat.

After opening a little steadler today on firm continental cables and bull support, wheat reacted under bearish Michigan state reports and from local selling, but recovered later on improved cash demand, commission-house buying and covering. The close was ic not higher. May closed at \$1.11. July closed at \$1.052.

New York Cotton Letter.

New York Cotton Letter,
les A. Pollock & Co., bankers and
rs, 6 West Second South street, furthe following, received over their
te wire yesterday afternoon;
k Bros. Cotton Letter—New York—
census report gave amount of cotdanded to January 1 as 12.470,000
This was just about what the
expected. Market opened up
s on good cables and bullish visible
y figures, which, according to the
York cotton exchange, showed a decor of 5,000 against an increase last
of 14,000. This was the first decroft taking with the exception
few minutes after the opening, the
tone was generally steady. Bullish
nent is helped somewhat by large
of neits tooks as Fall Eiger. nent is helped somewhat by large of print cloths at Fall River.

METAL MARKET QUIET IN ABSENCE OF CABLES

PRICES OF METALS IN NEW YORK MARKET Silver 51&c 7 Copper (electrolytic) \$14.12\$@14.37\$ 7 Lead, dull \$4.17\$@4.22\$ 7

********** NEW YORK, Jan 9.—The metal markets were quiet in the absence of cables. Tin was reported easy at \$28.20@28.30.

Copper was dull and unchanged at \$14.50@14.52½ for lake, \$14.12@14.37½ for electrolytic, and \$14.00@14.25 for casting. Lead was dull, at \$4.17@4.22½, and speiter was quiet at \$5.12½@5.17½.

Iron was unchanged.

WHEAT MARKET WEAK FAIRLY BUSY DAY ON AT CLOSE OF SESSION

Heavy Selling on News From Argentina.

CHICAGO, Jan. 9 .- The break in wheat prices occurred late in the session, fol-lowing the announcement that a reliable lowing the announcement that a reliable authority now places the total yield of wheat this year in Argentina at 216,000,000 bushels which is a much heavier yield than previously estimated. This news enlivened an otherwise dull session, and brought out general selling during the final half-hour, which resulted in the May and July deliveries declining nearly 10 from the high point of the day. The market closed weak, with May at \$1.062 and July at 38c.

A substantial increase in offerings of corn from Iowa and Nebraska had a weakening effect on the corn market, but the volume of trade was not large. The market closed weak: May, 6126 512c; July, 612c.

it the volume of trade was not large, in market closed weak; May, 615@ Ec; July, 615@. Commission houses and cash interests cre fair sellers of oats, and, as a result, as a few to be close to be below the previous close. Provisions were rather weak, the feare of trade being free sales by a leading grain operator. The market closed say, with prices 5@10c lower. NGE OF THE LEADING FUTURES.

THE PRODUCE MARKET

Break in Prices Caused by Inclement Weather Interferes Little With the General Trade.

> In spite of the inclement weather Saturday was a fairly busy day on the local produce market. After a week of practically "nothing doing," dealing was moderately strong in all dealing was moderately strong in all departments. However, no new fea-tures were presented in the way of new arrivals and prices remained firm and

Turkeys were very scarce Saturday and could not be procured for less than 30 cents a pound, and consequently the demand for this delicacy was very light. Spring chickens sold moderately well for 25 cents a pound, and dressed hens for 20 cents a pound. Cranber-ries were very plentiful, but there was no change in the price-15 cents a

Fresh vegetables were more or less Fresh vegetables were more or less in demand Saturday, and dealers reported good sales of potatoes, cabbage, cauliflower, and the like. In the fruit line oranges sold as well as anything. This fruit is at its best and the price is now reasonable. Saturday good oranges could be obtained for 30 cents a dozen, while bananas were plentiful at 20 and 25 cents a dozen.

Additional Mining News

DIVIDENDS OF PAST YEAR FOR COPPERS

Dividends paid by the Boston-owned copper mining companies in 1908 aggregated \$16,550,111, a decrease of \$28,573,889 compared with 1907, says the Boston News Bureau.

The 1908 figures do not represent the total amount paid from last "car's earnings, as in several instances disbursements were declared last mouth from 1908 earnings and made payable in 1909, but in order to keep the record accurate, only the dividends actually paid in 1908 are credited to that year. We give herewith the 1908 and 1907 dividend records in detail, with aggregate disbursements in 1908: gate disbursements in 1908:

Amalgamated and Copper Range are not included in the above table, as only the subsidiary company dividends are considered, to avoid duplications.

SIOUX CONSOLIDATED PAYS GOOD DIVIDEND

Special to The Tribune.

PROVO, Jan. 9.—The board of directors of the Sioux Consolidated Mining company met here today and declared a dividend of eight cents a share, the books to close on January 15 and to reopen on January 21. The dividend is payable on January 20. There are 254.611 shares of stock still in the treasury of the company.

Jesse Knight has received a letter from a stock brokerage firm in New York asking him to list the Colorado mining stock with the New York stock exchange, and also asking for a figure on a block of the stock. No action has been taken on the listing proposition, but Mr. Knight has wired the firm that they can have 50,000 shares of the stock, but the price is kept a secret. It is known, however, that the price is in advance of the quotations of the Salt Lake exchange.

UNCLE SAM LETTING SOME MINERS GO

The directors of the Uncle Sam and May Day mining companies held the regular monthly meeting Saturday af-ternoon in this city. The Uncle Sam company has laid off some of its miners, company has laid off some of its miners, and shipments are about to be stopped pending the completion of another ore contract to take the place of the one which expires on the 22nd of this month. It is supposed that development work will be continued by the company. The May Day company, as far as was learned, will continue shipments as usual. The Lower Mammoth company, another so-called Dern property, will hold its annual meeting on Monday at 2 o'clock. John Dern, general manager, is expected back from the east today.

New York Stock Letter.

New York Stock Letter.

James A. Pollock & Co., bankers and brokers, 6 West Second South street, furnish the following, received over their private wire yeaterday afternoon:

Dick Bros. Stock Letter—New York—Market weakened and broke sharply today, gold exports and the quarrel between President Roosevelt and congress were the disturbing factors. It was simply a reaction in a bull market, such breaks give great opportunity for purchases. There is no general demand for money so that gold exports are not likely to disturb market. The president will soon retire

from office, so that the quarrel with him cannot last long. The coming business improvement will mean higher prices for stocks, such issues as New York Central. Reading and Rock Island, Southern Pacific and the Interborough looked very attractive on today's slump.

Park City Ore Shipments

PARK CITY, Jan 3.—Park City ore hipments in pounds for the week ending day were as follows: 697,000 588,000 219,000 Total 2,654,090 Metal Market.

The metal quotations for Saturday, osted by McCornick & Co., were as follows: Silver, 515c; lead, \$4.20; copper, 14 1-16c
